

Project Appraisal

Meaning

- The exercise of project appraisal simply means the assessment of a project in terms of its economic, social, and financial viability.
- This exercise is critical as it calls for a multi-dimensional analysis of the project that is, a complete scanning of the project.
- Financial institutions and banks make a critical appraisal of projects which are submitted to them by the entrepreneurs for getting loans.

Scope of appraisal

- Choice of technical process and/or appropriate technology.
- Size and scale of operations
- Locational aspects of the project and availability of infrastructural facilities.
- Selection of plant, machinery and equipment.
- Plant layout and factory buildings
- Determination of project cost estimates, profitability projections etc.

Total				

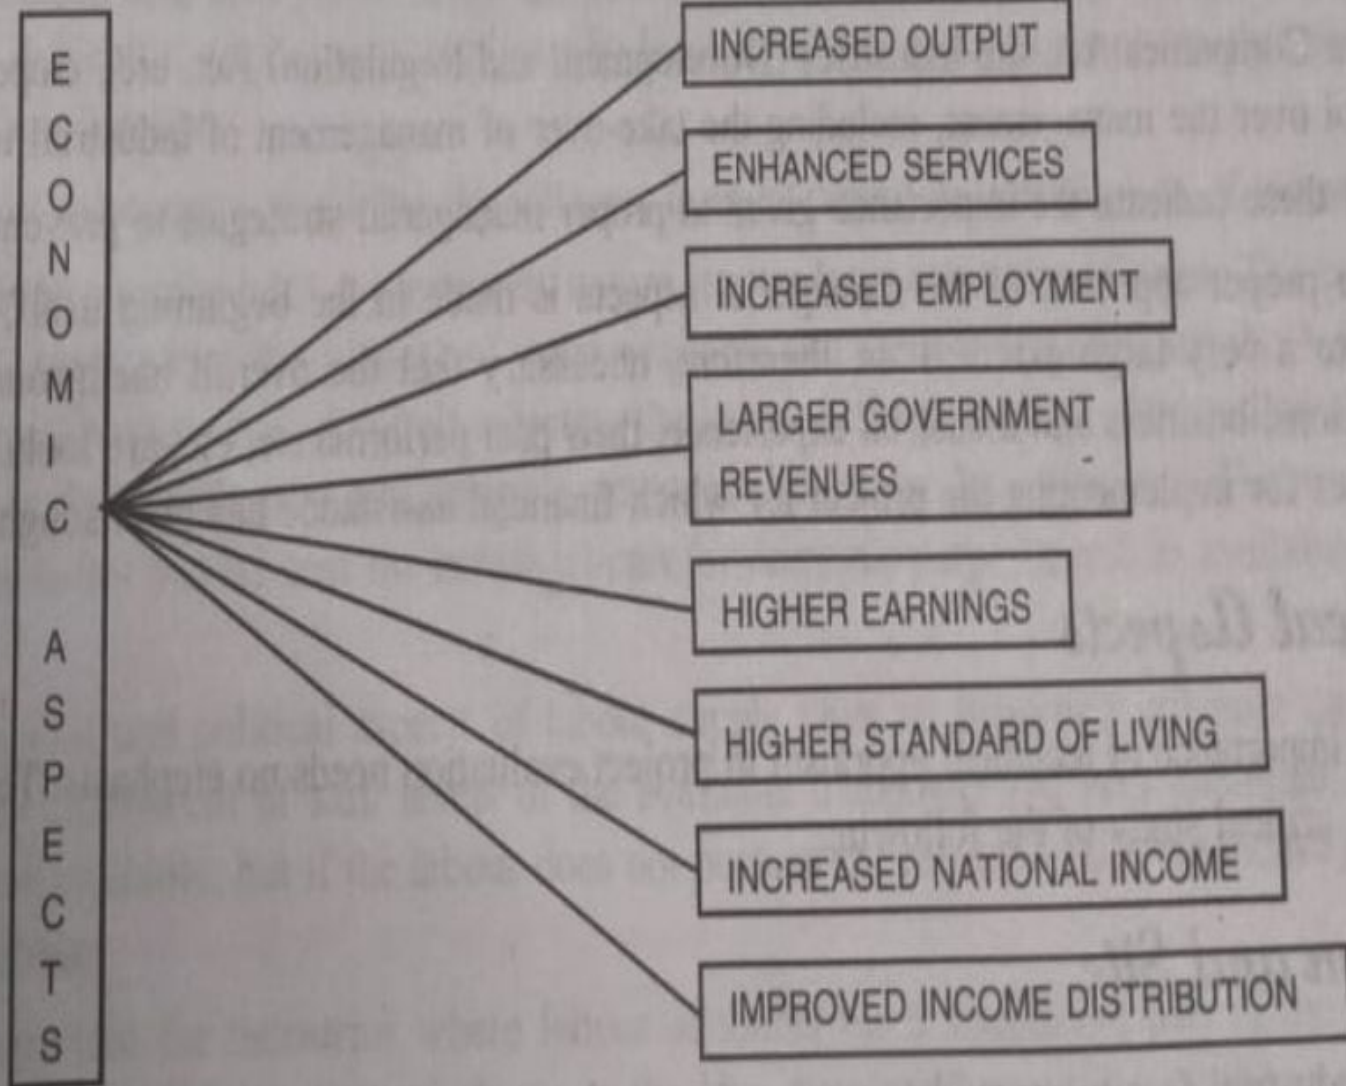

Point Scale: A = 5 points; B=4 points; C=3 points; D=2 points; E=1 point.

Steps followed in project appraisal

1. Economical- indicates priority use.
2. Technical-involves scale of the project and the process adopted.
3. Organizational- suitability is examined
4. Managerial- adequacy and competence are critically scrutinized.
5. Operational-capability of the project.
6. Financial- determines the financial viability for sound implementation and efficient operation.

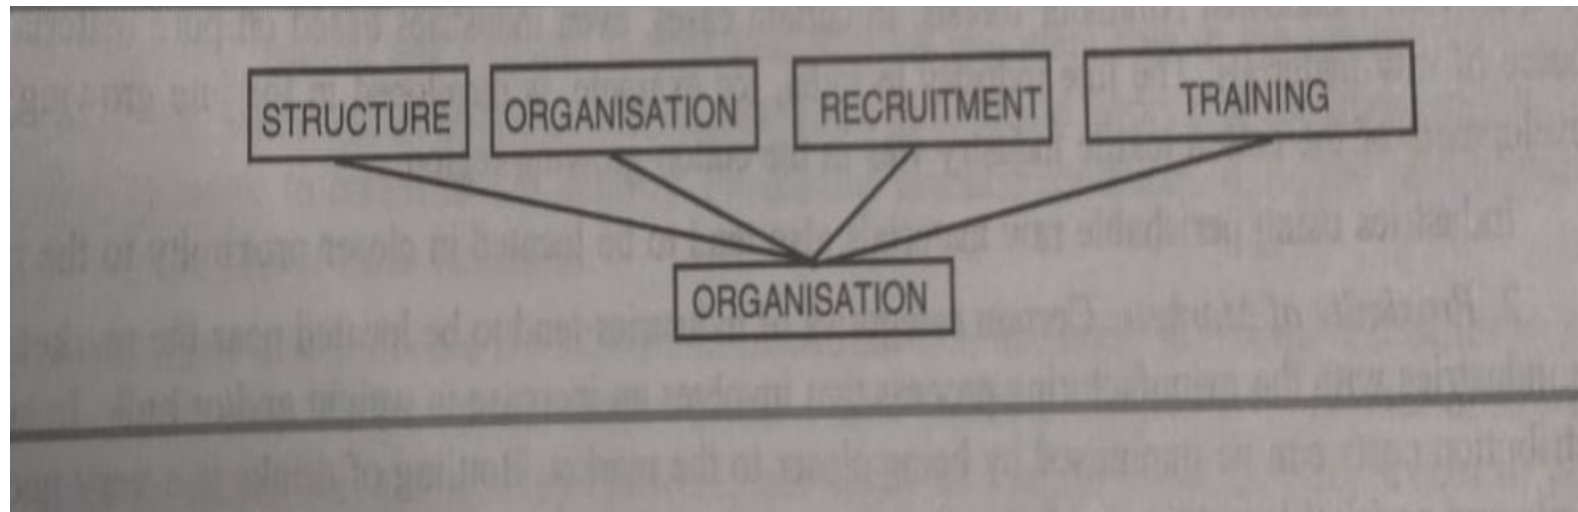

Economic Aspects

- Bank will not finance a project unless it stands assured that the project represents a high-priority use of a regions resources.
- The economic benefits brought about by a successful project normally take the form of an increased output of goods or services. This increased production will also generate many different forms of additional income.
- Quantify projects in terms of cost and benefit.

Organizational and managerial Aspect

- As a lender and a development institution, the bank places particular stress on the need for and efficient organization and responsible management for the execution of the project.

Technical aspects

- **The need of technical appraisal in project evaluation need no emphasis. It involves a critical study of the following:-**

Location and site

- Raw material supplies
- Proximity of markets
- Transportation facilities
- Power and fuel supplies
- Water
- Manpower and many more.

Financial Aspect

- The financial aspect of project appraisal covers the following areas:-
- Cost analysis
- Pricing
- Financing
- Income and expenditure
